I also authorize agents of any hospital, treatment center or previous physicians to furnish The Oklahoma Proton Center copies of any records of my medical history, services or treatments. I also authorize the release of any medical information and/or reports related to my treatment to any federal, state or accreditation agency, or any physician or insurance carrier as needed. I also agree to a review of my records for purposes of internal audits and quality assurance reviews within The Oklahoma Proton Center.

2. In the event my insurance carrier does not accept Assignment of Benefits, or if payments are made directly to me or my representative, I will endorse such payments to The Oklahoma Proton Center.

4. I understand that I may be responsible for charges not covered or reimbursed by the above agents. In some cases, exact insurance benefits cannot be determined until the insurance company receives the claim. It is my responsibility to notify the Oklahoma Proton Center of any changes in health care insurance coverage.

5. I understand that my patient information arising out of my medical treatment by my physician and this medical practice (without identifying me or any other patient by name or address, unless otherwise permitted by law) may also be shared with interested third parties. These third parties include (a) managed care companies, insurance companies and other payers; (b) companies that produce chemotherapy and other drugs; (c) governmental bodies (such as the Food and Drug Administration, the National Cancer Institute and the Health Care Financing Administration); (d) federally funded registries (which in the case of patients receiving stem cell transplant services may include the sharing of patient identifying information such as my name and address) and universities; (e) representatives and agents of my health benefit plan; (f) persons conducting quality or peer review or patient satisfaction surveys; and (g) other clinical and non-clinical parties that have a contractual relationship with The Oklahoma Proton Center.

# PHQ-9 Patient Depression Questionnaire

**For initial diagnosis:**

1. Patient completes PHQ-9 Quick Depression Assessment.
2. If there are at least 4 ✓s in the shaded section (including Questions #1 and #2), consider a depressive disorder. Add score to determine severity.

***Consider Major Depressive Disorder***

- if there are at least 5 ✓s in the shaded section (one of which corresponds to Question #1 or #2)

***Consider Other Depressive Disorder***

- if there are 2-4 ✓s in the shaded section (one of which corresponds to Question #1 or #2)

**Note:** Since the questionnaire relies on patient self-report, all responses should be verified by the clinician, and a definitive diagnosis is made on clinical grounds taking into account how well the patient understood the questionnaire, as well as other relevant information from the patient.
Diagnoses of Major Depressive Disorder or Other Depressive Disorder also require impairment of social, occupational, or other important areas of functioning (Question #10) and ruling out normal bereavement, a history of a Manic Episode (Bipolar Disorder), and a physical disorder, medication, or other drug as the biological cause of the depressive symptoms.

**To monitor severity over time for newly diagnosed patients or patients in current treatment for depression:**

1. Patients may complete questionnaires at baseline and at regular intervals (eg, every 2 weeks) at home and bring them in at their next appointment for scoring or they may complete the questionnaire during each scheduled appointment.
2. Add up ✓s by column. For every ✓: Several days = 1 More than half the days = 2 Nearly every day = 3
3. Add together column scores to get a TOTAL score.
4. Refer to the accompanying **PHQ-9 Scoring Box** to interpret the TOTAL score.
5. Results may be included in patient files to assist you in setting up a treatment goal, determining degree of response, as well as guiding treatment intervention.

**Scoring: add up all checked boxes on PHQ-9**

**For every** ✓ Not at all = 0; Several days = 1;
More than half the days = 2; Nearly every day = 3

**Interpretation of Total Score**

| Total Score | Depression Severity |
|---|---|
| 1-4 | Minimal depression |
| 5-9 | Mild depression |
| 10-14 | Moderate depression |
| 15-19 | Moderately severe depression |
| 20-27 | Severe depression |
